

UNIVERSITY OF
CAMBRIDGE

Research Fellow in Animal Protozoology

Department of Pathology

Closing Date: 31st August 2025

Job Reference: PK46595

Research Fellow in Animal Protozoology

Salary:

£46,735 - £59,139

Contract:

Fixed Term (5 years)

Location:

Cambridge

Faculty / Department:

Department of Pathology

Responsible to:

Head of Department

Working Pattern:

Full Time

The University of Cambridge has a Hybrid Working Policy that aims to enable as many staff as possible to work in a hybrid way if they so wish, whilst recognising that some roles will include tasks that can only be performed on University premises.

Purpose of the role

Christ's College and the Department of Pathology are seeking to appoint an outstanding individual to a fixed-term Research Fellowship in Animal Protozoology. This is a joint initiative aimed at supporting an innovative and independent research programme within the vibrant scientific environment of the University of Cambridge. The successful candidate will be based in the Department of Pathology, benefiting from its state-of-the-art facilities and a collaborative community of parasitologists.

The Research Fellow will be expected to establish and lead an exciting, innovative, and independently funded research programme focused on protozoan parasites of animals. This role offers a unique opportunity to contribute significantly to our understanding of animal protozoology, leveraging the considerable resources and expertise available within the Department of Pathology and the wider School of Biological Sciences.

Key responsibilities

The duties of the Research Fellow will include, but are not limited to, the following:

Research:

- Developing and leading an independent, cutting-edge research programme in animal protozoology.
- Securing independent research funding from national and international agencies (e.g., Wellcome Trust, UKRI).
- Publishing high-quality research in leading peer-reviewed journals.
- Presenting research findings at national and international conferences.
- Supervising postgraduate students and junior researchers within their group (if applicable).
- Actively collaborating with other research groups within the Department of Pathology, the School of Biological Sciences, and across the University.
- Managing research budgets and resources effectively.

Key responsibilities continued**Teaching and Supervision:**

- Contributing to undergraduate and postgraduate teaching within the Department of Pathology, potentially including lectures, practical classes, and supervisions.
- Mentoring and advising students.

College Life:

- Taking a full and active part in the life and activities of Christ's College.
- As a member of the Governing Body of Christ's College, the Fellow will be eligible to sit on its committees.
- Undertaking undergraduate teaching (supervisions) for the College during Term, for which payment will be made at normal supervision rates.

Administration:

- Participating in departmental and College administrative duties as required.
- Adhering to University and College policies and procedures, including those related to health and safety, ethics, and research integrity.

Person Specification

Criteria	Essential	Desirable
Education		
A Ph.D. or equivalent degree in a relevant subject area (e.g., Parasitology, Veterinary Medicine, Molecular Biology, Immunology, Microbiology, Zoology)	✓	
Academic/Research/Teaching		
At least three years of post-doctoral research experience in a relevant field of protozoan parasitology	✓	
A clear vision for an exciting, innovative, and fundable research programme in animal protozoology, demonstrated through a compelling research proposal	✓	
A strong record of high-quality research publications in reputable peer-reviewed journals	✓	
Enthusiasm for and a demonstrable ability to contribute to teaching at undergraduate and postgraduate levels.	✓	
Expertise in apicomplexan parasite biology and familiarity with techniques such as flow cytometry, genomics, and advanced imaging		✓
Leadership experience and achievements		
Previous experience of leading a research group.		✓
Ability to work effectively as part of a team and to foster collaborative relationships.	✓	
A track record of attracting independent research funding or fellowships.		✓
Experience in managing a research laboratory and ensuring compliance with safety regulations (e.g., CL3 facilities).		✓
Skills		
Excellent oral and written communication skills, with the ability to present complex scientific information clearly and effectively to diverse audiences.	✓	
Demonstrated ability to work independently and to lead a research project.	✓	

Declaration on Research Assessment

The University of Cambridge is a signatory to the San-Francisco Declaration on Research Assessment (DORA), and in recruitment or promotion evaluations will assess research on the basis of its merits rather than the journal or venue in which it is published. Applicants should not include Journal Impact Factors or uncontextualized metrics in their applications. Full details are at: <https://www.research-strategy.admin.cam.ac.uk/research-policy/DORA>

Professional Services Values

Developed by professional services staff, our values underpin everything we do. By living the values in the work we do, we hope to foster an environment where staff feel empowered. The values encourage staff to; work together and share skills to create a sense of community, act with integrity, take an inclusive and fair approach and develop honest and open relationships that are underpinned by our shared values. We encourage applicants to consider these values within their application.

The Department of Pathology

The Department of Pathology has a complement of around 250 staff, including some 45 senior academic staff and around 80 graduate students. Research and teaching activities are administered through four divisions: Cellular and Molecular Pathology, Immunology, Virology, and Microbiology and Parasitology. The Department is located on two sites: Tennis Court Road in the centre of Cambridge and at the Addenbrooke's Hospital complex (the Biomedical Research Centre) some two miles away.

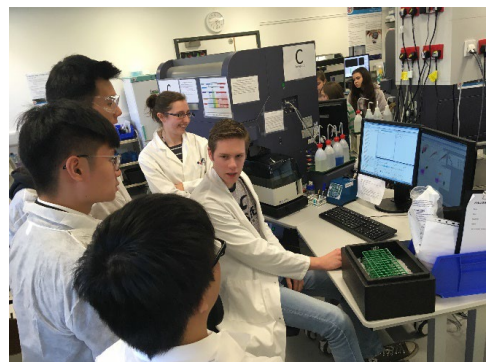

Research

Major research themes in the Department as a whole include immunology, cancer biology, stem cells, placentation, and pathogenic mechanisms in bacteria, viruses and parasites. There are excellent facilities for research: in particular, the Department is well equipped for microbiological, cell biological, histological, and immunohistochemical methods, including confocal and video microscopy, laser microdissection, flow cytometry, and functional genomics. There is access to excellent atomic force microscopy, proteomic facilities, and well-equipped biological services.

The Department has a total research income of ~ £10M yearly, and in the 2014 Research Excellence Framework contributed to Unit of Assessment 1 (Clinical Medicine), which achieved the highest ratings in UK. Further details are found on the [website](#).

Teaching

The Department has teaching duties within the School of Biological Sciences for over 500 undergraduate students of medicine, veterinary and natural science in our Part IB (second) year Biology of Disease course and popular Part II (final) year Pathology course in which we offer specialist options across Immunology, Microbiology & Parasitology, Virology and Cancer and Genetic Diseases. The Department undertakes teaching of Clinical Pathology to medical students in years four to six within the School of Clinical Medicine. The Clinical School prepares over 780 students, including around 100 graduate-entry students, for the final MB examination, in which Clinical Pathology is one of the four major subjects. The Department contributes to a flourishing PhD programme that has around 80 PhD students funded directly from research bodies, the Department itself and from the University's MB PhD programme.

The School of Biological Sciences

The School of the Biological Sciences is one of the six Schools that are responsible for delivering teaching and research and the administration of those activities within the University.

About the School

The School of the Biological Sciences encompasses the Faculty Board of Biology and the Faculty Board of Veterinary Medicine and is represented on the Faculty Board of Clinical Medicine. It has responsibilities across three Triposes (the Natural Sciences Tripos, Medical and Veterinary Sciences Tripos and Psychological and Behavioural Sciences Tripos) and is responsible for graduate education within the Departments and University Partner Institutes that sit within the Faculty of Biology.

The School collaborates closely with the School of Clinical Medicine. At the graduate level the Graduate School of Life Sciences looks strategically at graduate provision and education across the two Schools and at the undergraduate level the Graduate Committee and Medical Education Committee with the Clinical School work closely together.

The School is a key player in the Cambridge Conservation Initiative as well as the majority of Cambridge Strategic Initiatives. The School is associated with the Museum of Zoology and the Botanic Garden. Key officers of the School plus details of relevant Research Ethics Committee (Human Biology, Psychology) can be found on the School's website:

www.bio.cam.ac.uk/. Various subcommittees report to the Council, as required. Formal representation on the Council of the School (its most senior decision-making body) is outlined in Chapter 8 of the University's Statutes and Ordinances. Heads of School Institutes, as well as Heads of Departments, are currently co-opted on to the Council, together with representatives of the three Faculty Boards. In addition, the Head of the Botanic Gardens and a representative from the School of Technology attend as observers.

Athena SWAN

The Athena SWAN Charter was launched in June 2005 to recognise and reward commitment to advancing the careers of women working in higher education in science, technology, engineering, mathematics and medicine (STEMM). Although developed to address the lack of female representation in these subjects, the activities that support the Charter will contribute towards a more positive working environment for all.

For more information on the history and principles of the Athena SWAN Charter please visit the Athena SWAN website.

The University of Cambridge was a founder member of Athena SWAN Charter and the University won its first award in the inaugural round of March 2006. Since then, the University has successfully renewed its Bronze Athena SWAN award in 2009 and 2012 and in 2014 achieved a Silver Athena SWAN award. Many of the Departments in the School of Biological Sciences hold awards at Bronze or Silver level and the School continues to support the Athena SWAN process across all subjects.

Christ's College

Christ's College is one of the constituent colleges of the University of Cambridge, founded in 1437. It is a vibrant and intellectually stimulating community that plays a crucial role in the academic and pastoral support of its students and Fellows. As a Research Fellow at Christ's College, you will become a member of its Governing Body, enjoying full privileges, including seven free meals per week. Subject to availability, an office in the College may be allocated. The College actively encourages its Fellows to engage in the broader life of the College community.

Terms of Appointment

Tenure and probation

Appointments will be made on a fixed-term basis for a period of 5 years due to limited funding. Appointments will be subject to satisfactory completion of a three-year probationary period.

Hours of Work and Working Pattern

This is a full-time position. Flexible working arrangements will be considered.

Pension

You will automatically be enrolled to become a member of USS (Universities Superannuation Scheme) – a hybrid pension scheme. For further information please visit: www.pensions.admin.cam.ac.uk/.

Annual leave

Full time employees are entitled to annual paid leave of 41 days inclusive of public holidays.

Research Salary

The Fellow will receive a research salary (details of which would be confirmed upon offer).

Research Allowance

A research allowance of £12,000 per annum will be provided to support research activities.

General information

Pre-employment checks

Right to work in the UK

We have a legal responsibility to ensure that you have the right to work in the UK before you can start working for us. If you do not have the right to work in the UK already, any offer of employment we make to you will be conditional upon you gaining it.

Health declaration: Once an offer of employment has been made the successful candidate will be required to complete a work health declaration form.

Qualifications: The person specification for this position lists qualifications that are essential and/or desirable. Please note that if you are offered the post you will be asked to provide your relevant original certificates of these qualifications.

References: Offers of appointment will be subject to the receipt of satisfactory references.

Screening Checks:

The nature of this role means that the successful candidate will also need to undergo a health assessment.

Information if you have a disability

The University welcomes applications from individuals with disabilities. We are committed to ensuring fair treatment throughout the recruitment process. We will make adjustments to enable applicants to compete to the best of their ability wherever it is reasonable to do so and, if successful, to assist them during their employment.

Information for disabled applicants is available at <http://www.admin.cam.ac.uk/offices/hr/staff/disabled/>

We encourage you to declare any disability that you may have, and any reasonable adjustments that you may require, in the section provided for this purpose in the application form. This will enable us to accommodate your needs throughout the process as required. However, applicants and employees may declare a disability at any time.

If you prefer to discuss any special arrangements connected with a disability, please contact the Department Administrator, who is responsible for recruitment to this position. Alternatively, you may contact the HR Business Manager responsible for the department you are applying to via hrenquiries@admin.cam.ac.uk.

The University

The University of Cambridge is consistently ranked one of the best universities in the world, achieving academic excellence through its Faculties, Departments and other Institutions, together with the 31 Colleges.

The University is renowned for its record of discovery and innovation. It is one of the great institutions, with a regional, national and global reach, attracting the very best and brightest minds. Our staff and students shape the world around us for the better: we attract and partner with like-minded people.

Whether contributing to the development of new anti-cancer drugs, adding to the understanding of how black holes are formed, revolutionising the study of ancient settlements, convening academic expertise to offer solutions to the climate crisis, or analysing public attitudes towards democracy around the world, the University's research is remarkable in its breadth, quality and impact. The University also sits at the heart of Europe's largest technology cluster and has catalysed more than 1,500 high-tech companies. And yet what inspires our 24,000 students and 13,000 staff is not what has already been achieved, but what is possible in the future.

The education and experience of our students, based on a partnership between the University's academic Departments and Faculties and the 31 Colleges, is second to none. Every student is a member of one of the Colleges, each a community of students, academics and staff drawn from across the University's comprehensive range of subject areas.

The University is a self-governing community, with a system for decision-making that provides a high degree of accountability and transparency to its members. Each Department and Faculty is part of one of six academic Schools, but each of them, and each individual academic, has a great deal of autonomy. The Colleges are independent and self-governing, working in a symbiotic relationship with the University.

The University has a number of Institutions that are independent of any Faculty or Department and are not part of the academic Schools. These include the Institute of Continuing Education (which provides high-quality education to adults throughout their lives), the Fitzwilliam Museum, Kettle's Yard (an historic house and gallery that holds important collections of modern art) and the University Library. In addition to their diverse contributions to University and public life, these non-School Institutions are also important centres of teaching and research.

Cambridge University Press & Assessment provides academic publishing, examinations and learning materials worldwide, supporting the dissemination of research, academic development at school and in higher education, and international student mobility. Legally, the Press & Assessment is a department of the University. It provides very important funds to invest in the academic purposes of the University.

The University has made truly remarkable contributions to the sum of human understanding, with breakthrough ideas and discoveries that have changed the way we understand ourselves, our planet, and the universe around us. Yet the global and national contexts in which it operates are fast-changing and increasingly filled with uncertainty. In a world that is becoming - politically, economically, socially, and technologically – ever more interconnected but even less equal, the University's mission – “to contribute to society through the pursuit of education, learning and research at the highest international levels of excellence” – has never been more relevant.

About Us

The University is one of the world's leading academic centres. It comprises 150 faculties and departments, together with a central administration and other institutions. Our institutions, museums and collections are a world-class resource for researchers, students and members of the public representing one of the country's highest concentrations of internationally important collections.

The University has an annual income of £2 billion. Research income, won competitively from the UK Research Councils, the European Union (EU), major charities and industry, exceeds £500 million per annum and continues to grow.

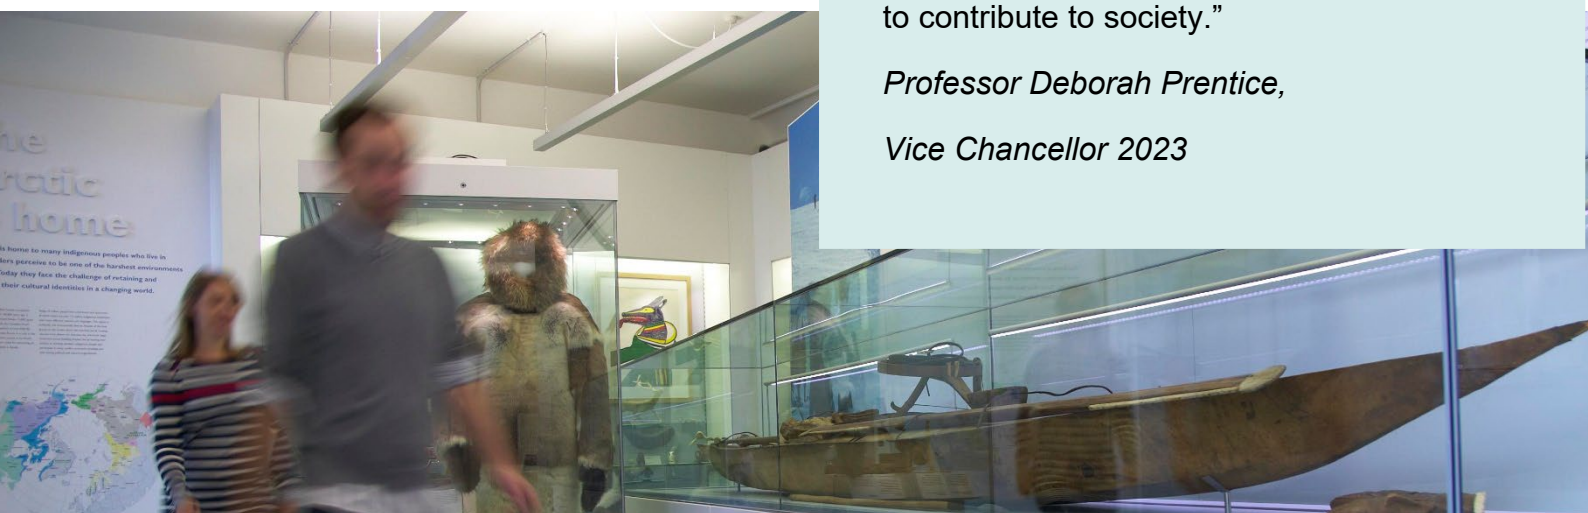

The Colleges and the University remain committed to admitting the best students regardless of their background and to investing considerable resources both in widening access and financial support. The 31 Colleges are self-governing, separate legal entities which appoint their own staff. Many academic staff are invited to join a College as a Teaching Fellow, which provides a further social and intellectual dimension. The Colleges admit undergraduate students, provide student accommodation and pastoral support and deliver small group teaching for undergraduates.

The University awards degrees and its faculties and departments provide lectures and seminars for students and determine the syllabi for teaching.

Our instinct for seeking out excellence and setting up enduring and mutually beneficial collaborations has led us to establish strategic partnerships across the globe. Whether it is the successful Cambridge-Africa Programme involving universities in Ghana, Uganda and elsewhere on the African continent; or the close association with the government of India to pursue new research in crop science; or the creation, with Germany's Max Planck Institutes, of a Cambridge-based centre for the study of ethics, human economy and social change – international partnerships are now an inextricable part of the University's make-up.

“Through its outstanding education, research and innovation, the University of Cambridge has made – and continues to make – a lasting contribution to human knowledge and is flourishing. By working at the University of Cambridge, you will be joining a vibrant community of students, scholars and professional services staff committed to supporting and enhancing the University's mission to contribute to society.”

*Professor Deborah Prentice,
Vice Chancellor 2023*

Working at the University

Working at Cambridge you will join a diverse, talented and innovative community, with more than 24,000 students and over 13,000 staff from all walks of life and corners of the world.

The University continually explores strategies to attract and retain the best people. It is committed to supporting its staff to achieve their best. We are a fair, diverse and inclusive society and we believe our staff are our greatest asset. There is strong commitment to developing institutional leadership and supporting and encouraging staff development at all levels.

The University offers a variety of roles including academic, research, professional, managerial and support roles. We also offer extensive benefits and excellent learning opportunities within a stimulating working environment.

The University's estate is undergoing the most significant transformation in its history. Cambridge has been able to create a science and technology campus to the west of the city centre, and is expanding further to the north west of Cambridge including investing in affordable homes for University key workers and community facilities. Even with their continued development, the University remains within walking or cycling distance across the campus. The University is a major partner on the Cambridge Biomedical Campus and continues to redevelop its historic city centre sites demonstrating a clear determination to ensure that we can offer the best facilities and opportunities for our staff and students.

Equality, Diversity and Inclusion

The University has built its excellence on the diversity of its staff and student community. We aim to be a leader in fostering equality and inclusion, and in promoting respect and a sense of belonging for all. We encourage applications from all sections of society. All appointments are made on the basis of merit. We have an Equal Opportunities Policy, along with a range of diversity groups, including the Women's Staff Network, Race Equality Network and LGBT+ Staff Network. More details are available here:

<http://www.equality.admin.cam.ac.uk/>

The University has a bronze Race Equality Charter award, with a framework for improving the representation, progression and success of minority ethnic staff and students within higher education. Furthermore, the University's silver Athena swan award recognises and celebrates good practice in recruiting, retaining and promoting gender equality.

Living in Cambridge

Cambridge is rich in cultural diversity. From beautiful University and College buildings, museums and art galleries, quaint gardens and punts on the River Cam, to a vibrant restaurant and café scene, our employees are surrounded by the wonderful features of this unique city.

You can find a wide-range of high street shops and 3 shopping centres, with independent alternatives at the historic market and nestled within the passageways in the city centre. You will find a cinema, bowling alley, a nightclub and various live performances at the Cambridge Leisure Park, with further entertainment options at the Corn Exchange, Arts Theatre and the ADC Theatre. Further information can be found on the Visit Cambridge website.

If you prefer the faster pace of life, London is a 45-minute train journey away. For those travelling from overseas, Stansted Airport is just 45 minutes away and Heathrow Airport under 2 hours away. The University is a short distance from a host of other attractions such as Ely Cathedral, Newmarket Races and various wildlife parks and stately homes. Cambridge is also within easy reach of the beautiful Broads and coastlines of Norfolk and Suffolk.

Relocation Support

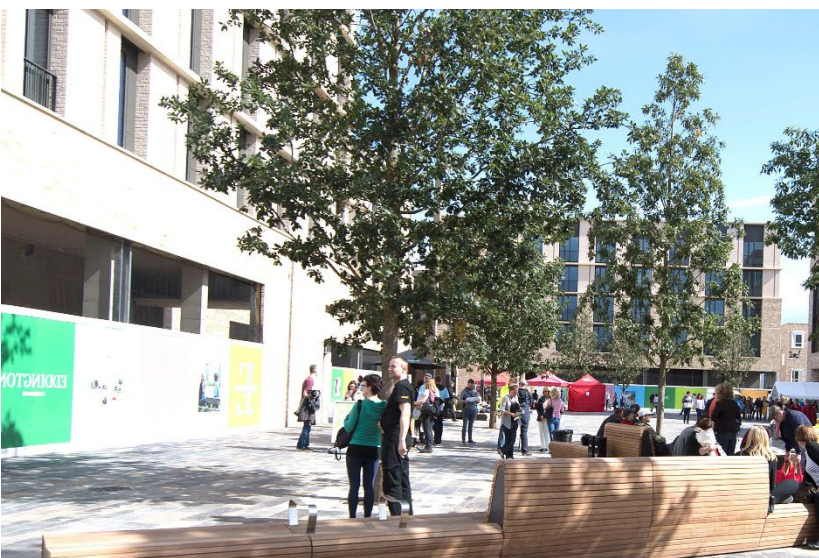

The University recognises the importance of helping individuals to move and settle into a new area. We provide support and guidance to those relocating internationally or domestically to take up a post at the University of Cambridge, liaising with other University offices and selected partners to ensure comprehensive relocation support is available. This includes: accommodation, childcare, schools, banking, immigration and transport. If you would like further information, please visit

<https://www.accommodation.cam.ac.uk/RelocationService/>. The Shared Equity Scheme and the Reimbursement of Relocation Expenses Scheme provide financial assistance to qualifying new members of

Accommodation Service

The University Accommodation Service helps staff, students and visiting scholars who are affiliated to the University in their search for suitable accommodation in Cambridge. The dedicated accommodation team can provide access to a wide range of University-owned furnished and unfurnished properties, and has a database of private sector accommodation available for short and long-term lets. For further information and to register with this free service please visit:

<https://www.accommodation.cam.ac.uk/>

What Cambridge can offer

We offer a comprehensive reward package to attract, motivate and retain high performing staff at all levels and in all areas of work.

The University offers a wide range of competitive benefits, from family leave entitlement, to shopping and travel discount schemes. Our generous annual leave package contributes to the positive wellbeing of our University employees. Sabbatical leave enables academics to focus on research and scholarship, whilst still maintaining their full salary. The University also has a [career break scheme](#) for academic and academic-related staff, with additional flexible working policies for all other staff.

Pay and benefits

The University salary structure includes automatic service-related pay progression in many of its grades and an annual cost of living increase. In addition to this, employees are rewarded for outstanding contribution through a number of regular pay progression schemes. The University offers attractive pensions schemes for employees, with an additional benefit of a salary exchange arrangement providing tax and national insurance savings.

CAMbens employee benefits

The University offers employees a wide range of competitive benefits, known as CAMbens. CAMbens offers something for everyone across a range of categories, including:

- Financial Benefits, including shopping discounts (both local and national) and a Payroll Giving scheme;
- Relocation and Accommodation Benefits, including relocation assistance and interest-free Rental Deposit Loans;
- Travel Benefits, including Cycle to Work, discounts on train season tickets and interest-free Travel to Work loans;
- Family Friendly and Lifestyle Benefits, including support with childcare and family friendly policies;
- Health and Wellbeing Benefits, including a University Staff Counselling Service, discounts at the University Sports Centre, and other local gyms, and healthcare schemes.

What Cambridge can offer

Family-friendly policies

The University recognises the importance of supporting its staff. We have a range of family-friendly policies to aid employees' work-life balance including a generous maternity, adoption and shared parental leave entitlement of 26 weeks' full pay, and paid emergency leave for parents and carers.

Other family-friendly support includes:

Our highly regarded workplace nurseries, a childcare salary exchange scheme and a high-quality holiday Playscheme are available to help support University employees with caring responsibilities (subject to demand and qualifying criteria). Further childcare information can be found here:

<https://www.childcare.admin.cam.ac.uk/>

The Newcomers and Visiting Scholars Group (<https://www.nvs.admin.cam.ac.uk/>) is an organisation within the University that welcomes the partners and families of visiting scholars and new members of the University. Run by volunteers, the group offers opportunities to visit interesting Cambridge venues, learn about the community, take part in social events and gain local knowledge while developing a strong support network of both residents and other newcomers.

Your wellbeing

The University's Sport Centre, Counselling Services and Occupational Health are just some of the support services available to University employees to promote their physical and mental wellbeing. The University delivers The Festival of Wellbeing annually, which is a programme of stimulating talks and activities, which aim to promote wellbeing and good mental and physical health. The University also hosts the [Cambridge Festival](#), which is a great opportunity to get your first taste of public engagement, through volunteering, supporting hands-on activities or proposing a talk.

Development opportunities

We support new employees to settle in through various activities as well as supporting their professional and career development on an ongoing basis. Our Personal and Professional Development (PPD) team provide development opportunities for all University employees, including face-to-face sessions, online learning modules and webinars. All employees also have unlimited access to LinkedIn Learning to support their development. Both new and existing employees can undertake funded Apprenticeships, which lead to a range of vocational and professional qualifications. We offer reduced staff fees for University of Cambridge graduate courses and the opportunity to attend lectures and seminars held by University departments and institutions. A range of University training providers also offer specialist learning and development in their own areas e.g. teaching and learning, digital literacy, finance, health and wellbeing, safety.

How to apply

Applications should be submitted online via the University of Cambridge jobs page www.jobs.cam.ac.uk by clicking “Apply online” in the job advert. You will need an email address to register for our online system.

Please ensure that your application includes the following documents in the Upload section:

1. **A full CV:** Including a full list of publications. For up to three outputs you consider most significant, please provide a narrative (300 words maximum per output). The Department is committed to the responsible use of bibliometrics, and applicants are asked **not to include raw citation counts, Journal Impact Factors, or H-index metrics** in their applications.
2. **Research Plans:** A description (2 page maximum) of your current and future research plans, detailing how these complement and synergise with the research strengths of the Department of Pathology, both within Parasitology and more widely.
3. **Covering Letter:** A covering letter (1000 words maximum) setting out why you are applying for this position and how your experience and plans address the person specification detailed in these further particulars.
4. **Academic Referees:** The names and contact details of three academic referees. References will be solicited for short-listed candidates after the closing date.

Selection Process:

The selection panel will meet shortly after the closing date to produce a short-list of candidates. Short-listed candidates will be invited to visit the Department, give a research seminar/lecture, and attend a formal interview.

Informal enquiries are welcomed and should be directed to: **Dr Katerina Artavanis-Tsakonas**
Email: ka447@cam.ac.uk

If you have any queries regarding the application process, please contact:
Suzanne Holland, PA to the HoD of Pathology
Email: hod.sec@path.cam.ac.uk

The closing date for applications is: 23:59 on 31st August 2025

Expected interview date for the role is: early to mid-September
